

This report summarizes the performance of different neurons based on key metrics.

The metrics include KS Statistic, Pearson Correlation, and RMSE.

KS Statistic is...

A perfect Pearson correlation is 1. A correlation of 0 indicates no linear relationship.

RMSE is the square root of the average of squared differences between predicted and actual values. A 0 RMSE indicates no error.

The Overall Score is a weighted combination of these metrics.

Summary Table of Neuron Performance Metrics

Neuron	KS Statistic	Pearson Correlation	RMSE	Overall Score
Neuron 1	0.0	1.0	0.0	100.0
Neuron 2	0.0	1.0	0.0	100.0
Neuron 3	2.056e-05	0.649	6.749e-05	0.0
Neuron 4	0.0	1.0	0.0	100.0
Neuron 5	5.556e-07	0.9997	1.054e-05	96.28
